

Sept. 18 12:40

- water is lively today
- I hear a frog! just one
- endless droning of AC? always plant
- ran into a spider silk
- on my way to da spot
- moss everywhere on the stones around me. cicadas are loud
- learned the lobster things are crayfish. lots, from 0.5 - 2 1/2" so cool.
- 10 water skimmers in the water
- water itself is very clear, unlike home.
- the wind blew and blew ripples (waves?) across the water. Ivy
- galore on the NE wall (fig. 1). not
- to mention the lichen, gosh, bright seafoam color. sound similar to cicadas
- constant running water sound - drain i assume bamboo! (fig. 4)
- only one side is the nature, S + W are steps + house (fig. 2 + fig. 3)
- house - spider make home + moss on sidewalk
- see flow in water,
- just saw creature tryna escape drain
- drain getting grow in cracks of rocks
- bush leaves turn red, fall!

yellow dots

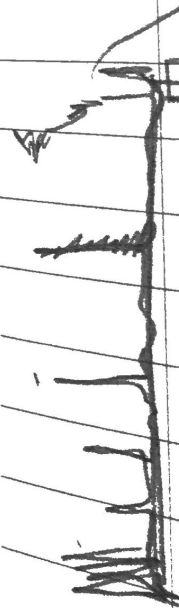

unknown fruit.

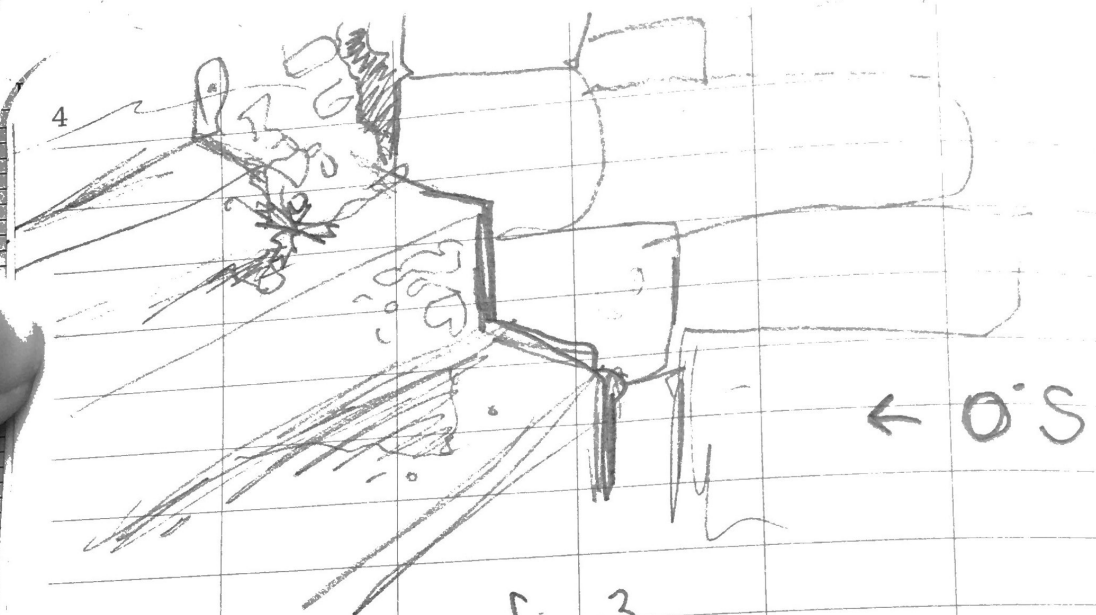

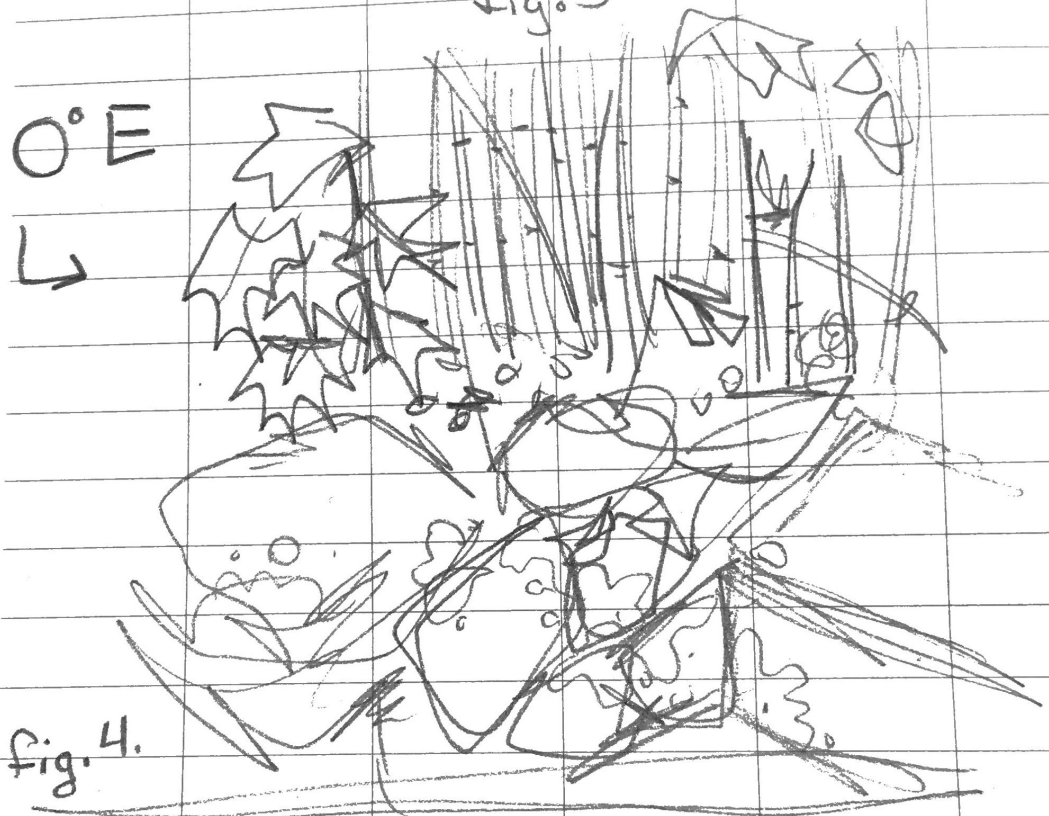

Fig. 3

• warm lizard ~~newt~~ thing just jumped in.
 afraid? thirsty? - dragon fly :) said Hy.
 • baby Salamanders in water. tiny legs.
 a lot!
 • bird flew by into east shrubbery.
 brown, bye.
